** ALASKA [non]. 13760, UT Mon May 5 at 0338, `DX tips for beginners`
just concluding by Carl Mann, something about electronix. I think
Mann`s tips were recorded decades ago and keep recycling on ``your New
Life Station``, originally KNLS only and now via MADAGASCAR, the SSOB
at S9+10/20 (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, May 3 at 0153, caught the last minute of RNB/RNA
token English, about contaminating a river, environmental racism,
violence (Glenn Hauser, OK, WOR)

** BRAZIL. 28330 USB, May 6 at 2212, PV8AL, Helio calling QRZ with
very quick contacts, contest? QRZ.com: ``PV8AL Brazil flag Brazil,
HÉLIO DE OLIVEIRA ALVES, POBOX 181, BOA VISTA, RR 69301970, Brazil``
with lots of antenna photos (Glenn Hauser, OK, WOR)

** BRAZIL. 28470 USB, May 7 at 2213, PU5WMA calling CQDX in English,
working a K4. QRZ.com: ``PU5WMA Brazil flag Brazil, Marcelo Arthur
Mendes Waechter, Rua Marechal Rondon, 5051, Cascavel, PR 85813720,
Brazil`` - lots of certificates, equipment, humans illustrated (Glenn
Hauser, OK, WOR)

** CANADA. 10051 USB, May 6 at *0050, Gander VOLMET, also audible on
13270 and JBA 6604 USBs, but not yet on 3485. At 0625 audible on all
four from 10051 best to 3485 JBA. Per EiBi available 24h starting at
:20 and :50 past the hours: but not for much longer: Mike Cooper
reports:

``[WOR] Gander VOLMET to be decommissioned next month
https://www.navcanada.ca/en/flight-planning/service-notices/2025-06-12-gander.aspx

Flight PlanningService Notices
2025-06-12 Gander
Notice of Change
Air Traffic Services (ATC/FSS)

Decommission of VOLMET Service provided by Gander International Flight
Service Station - Gander, NL

NAV CANADA, the country's provider of civil air navigation services,
conducted a review of the requirement for In-flight Meteorological
Information (VOLMET) Service provided by the International Flight
Service Station (IFSS) at Gander, Newfoundland and Labrador.

The review determined that the removal of the VOLMET service will not
have a material impact on stakeholders and would not be a material
change to the services provided by NAV CANADA to the aircraft
transiting the Gander Oceanic Control Area (OCA).

Aviation technology has evolved to allow suitably equipped aircraft to
acquire the required meteorological information directly from
alternate sources. This has alleviated the need for pilots to monitor
a scheduled VOLMET broadcast on a high frequency (HF) radio.

Aircraft not equipped to receive meteorological information via
alternate means may continue to request necessary weather updates from
Gander IFSS via the North Atlantic (NAT) family of HF frequencies.

This change will take effect on 12 June 2025 at 0901Z Coordinated
Universal Time (UTC). The appropriate aeronautical publications will
be amended.

For further information please contact:
NAV CANADA

Customer and Stakeholder Services
151 Slater Street
Ottawa, ON K1P 5H3
Phone: 1-800-876-4693
Email: service@navcanada.ca``

They used to be shared with New York VOLMET, and 3485 with many other airports` 2-way. The 2-way comms frequencies for Gander in EiBi are: 2872, 2899, 3016, 3476, 4675, 5598, 5616, 5649, 6622, 8831, 8864, 8879, 8891, 8906, 8918, 11279, 11336, 13291, 13306.

Here is a comprehensive frequency list of VOLMET broadcasts worldwide: https://dxinfocentre.com/volmet.htm

Meanwhile, the only other HF VOLMET in Canada, CHR, Trenton Military, remains silent after another protracted spate of ``no reports received`` on 15034, 6754 USBs. Who knows if it ever revive? IIRC, Gander has no such ``nrr`` problem (Glenn Hauser, OK, WOR)

** CANADA. 28174+ CW, May 6 at 2207, VVV DE VE1VDM/B EEEEEEEEEE. QRZ.com: ``VE1VDM Canada flag Canada, Vernon Matheson, 189 Kaulback St. Apt 401, Truro, NS B2N0B6, Canada, Current operating status: VE1VDM/B 10m beacon at 8 watts on 28.174 mhz. TX is a AA7DJ 10 meter beacon and the antenna is a 10m dipole approximately 35' AGL - Location is remote at FN85ij just outside of Truro NS`` (Glenn Hauser, OK, WOR)

** CANADA. 28193 CW, May 7 at 2204, VVV DE VE4ARM/B and more ending with 17 or 18 E = dits. WGB list: ``28193.0 VE4ARM/B - Manitoba Amateur Radio Museum - Austin MB CAN EN09mw - #0 (31 Mar 2025) Note: VVV de ID + grid + E × 16 - Pwr 5w`` with a bit more Es MUF I should have had FM DX from that area. QRZ.com: ``VE4ARM Canada flag Canada, MANITOBA AMATEUR RADIO MUSEUM INC., C/O Johnson, Bruce Frederick, 153 Wharton BLVD, Winnipeg, MB R2Y 0S9, Canada`` (Glenn Hauser, OK, WOR)

** CHILE. 28473 USB, May 3 at 2219, CA3VAK calling CQDX in English, working USA. QRZ.com:
``CA3VAK Chile flag Chile, Victor M. Aranguiz M., Santiago, Chile``.
Not unusual for 12, 11 and 10m beacon band to seem dead but Chilean phones make it (Glenn Hauser, OK, WOR)

** CHILE. 28436 USB, May 3 at 2220, CE4KM calling CQ DX in English. QRZ.com: ``CE4KM Chile flag Chile, César Orellana Lopez, CALLE DUAO PASAJE PUNTILLA #377, MAULE, MAULE, CHILE, CE 3460000, Chile - Talca ( 35 ° 26′00 ″ S  71 ° 40′00 ″ O ) / (FF44en) capital de la VII región del Maule. 255 KM al Sur de la Capital Santiago de Chile`` (Glenn Hauser, OK, WOR)

** CHILE. 28460 USB, May 5 at 2207, CE8MGZ, QSO with USA in English. QRZ.com: ``CE8MGZ Chile flag Chile, WALTER CESAR MARAMBIO GARCIA, avenida mirador. #5153 compañías altas, LA SERENA. 4 Región teléfono (+56957382014), CP 1700000, Chile`` - Once again hardly any activity except deep S America on 10m, nothing much in beacons, or on 12, 15m phone; see URUGUAY (Glenn Hauser, OK, WOR)

** CHILE. 28506 USB, May 7 at 2208, XQ3WD calling CQDX, working a KD9 in Indiana, etc. Lots of fading, and a non-standard fonetik for his second letter - sounded like ``Peter``, certainly not Quebec, or even Queen. Also was not sure whether number 2 or 3. Not in QRZ.com, but DXheat cluster shows such a call on that frequency later that hour (Glenn Hauser, OK, WOR)

** CUBA [and non]. 1040 kHz, May 5 at 0401 UT, wobbler beneath WHO, only one currently audible (Glenn Hauser, OK, WOR)

** CUBA. 6000, May 4 at 0021, S9+20/25 of dead air from RHC in English, as usual. Something`s always wrong at RHC. 5990, May 4 at 0021, S9+15/20 of JBM talk with whine, presumably CRI relay. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 15230, May 4 at 1437, dead air from RHC in Spanish is the SSOB, S9/S7, rivaled only by 15770 WRMI S9 fading to S5. Something`s always wrong at RHC; if only they could manage to modulate (Glenn Hauser, OK, WOR)

** EGYPT. 9440, May 3 at 2215 direct, and at 2236 into UTwente, NO signal from R. Cairo`s 2115+ sesquihour in English. I have given up checking for it much, but I suspect has been totally off the air. Latest reports I easily find were from early February. Has anyone heard *any* R. Cairo broadcast, since when? They are all scheduled on a 9 MHz band frequency:
https://new.hfcc.org/data/schedbyfmo.php?seas=A25&fmor=ERU
(Glenn Hauser, OK, WOR)

** EGYPT. Replies to my inquiry whether anyone has heard any R. Cairo lately?:

Zacharias Liangas, Greece via some remote: ``my yesterdays log with better than usual sound:
9899.97 Egypt 1755 that time -60 quite audible, buzzy with -3 and 2 string, Clock 1757 (???) then with man talking in Arabic, news``

Alan Roe, Teddington, UK: ``Hi Glenn, I did log R. Cairo's Russian service on 2 May at 1925 on 9890 (with Arabic music, Egypt's National Anthem at 1930, followed by presumed news). Audio poor, as usual, but probably understandable if I could speak Russian``

So Sun May 4 at 1815 I check UTwente for R. Cairo scheduled:
9899.955+, S9+15/25 undermodulated, presumed Turkish, but nothing on 9470 Italian. There is a one-hour overlap with Turkish 17-19, Italian 18-19 - can they ever be on two frequencies at once? At 19-20 sked on 9410 German, 9890 Russian. At 1900*, 9900 goes off and soon on 9889.958 instead, S9+20/35 with Qur`an in presumed Russian service, but nothing on 9410 (Glenn Hauser, OK, WOR)

** KIRITIMATI. 846 kHz, May 3 at 0630, JJBBA carrier. Almost every night I check for signs of R. Kiribati reactivated, which used to be regularly detectable, since it`s on a `clear` split and very far east, same longitude as Hawai`i. This is so weak that I am far from sure it`s not a spoiler birdie (Glenn Hauser, OK, WOR)

``Hi Glenn - Checked May 4, a few times after 0445+ and heard nothing on 846, via several NZ remotes; was a clear frequency``. Ron Howard (Glenn Hauser, OK, WOR)

** MEXICO. 28276 CW, May 6 at 2209, XE1JAL/B, a beacon often heard before; QRZ.com: ``XE1JAL Mexico flag Mexico, Mario Rizo Campomanes, Calle Francisco Navarrete No. 8 - B , Colonia Tamborrel, Xalapa - Enriquez, Veracruz, Codigo Postal 91050, Mexico`` - WGB list:
``28276.0   XE1JAL/B - Xalapa Veracruz MEX EK19mm - #0/1 (01 May 2025) Note: ID + grid + 3" carrier`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, May 4 at 0020, pirate music, S9+5. Bet it`s Wolverine Radio; yes:
https://www.hfunderground.com/board/index.php/topic,144450.0.html
Many of these reporters list every song played by a pirate - I guess they have great reception unlike me, have tremendous musical knowledge, or Shazaam to the max. I`m glad not to bother (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6970.67 AM, May 3 at 0152, pirate music S9+5. These say Sternradio: https://www.hfunderground.com/board/index.php/topic,144385.0.html (Glenn Hauser, OK, WOR)

** OKLAHOMA. 87.9, May 7 at 2017 UT, deadair in $tereo on caradio in my neighborhood; not always on, and only sometimes musicking, RF feeder? (Glenn Hauser, Enid, WOR) See also UNIDENTIFIED

** OKLAHOMA. 97.5, May 7 at 1651 UT, tuning caradio for Es gets `new` fairly strong and steady $tereo signal here, ``Classic Hits, 97-5, KZLF``. `1702 ``all-news 97-5 KZLF``, ``tnx for all our freedoms`` plug; 1703 ``SSB`` solo by soprano YL; 1705 jingle. Was expecting Tulsa but hardly anysigs from others 95.5 & 96.5. WTFDA FM DB shows KZLF Alva OK, 50/50 kW, 150.0m, ``silent 10/31/24 xmtr damaged by lightning`` -- well, it`s back! Sounds too much like Enid`s KZLS - coincidence?

92.9, May 7 at 1653 UT, ``92-9 The Edge``, really K225BN xltr of 92.5 KOMA-HD2, 200 watts H/V at 267.7m HAAT. Nearest 92.9 competitors are Tulsa, Wichita Falls and Osage City KS = between Emporia & Topeka.

In full bandscan these without $tereo pilot icon: 89.3 KIEL Loyal; 90.3 KHEV Fairview; 105.1 KOSB Perry. Also 91.7 KOSU with NPR talk daytime but $ The Spy music alterego nighttime. WTFDA FMDB has no way of showing stations half $/half mono but could be in remarx (Glenn Hauser, OK, WOR)

** PANAMA. 28282 CW, May 6 at 2210, VVV HP1DQP/B plus long msg including PANAMA. NOT in QRZ.com nor in WGB beacon list! (Glenn Hauser, OK, WOR)

** PANAMA. ``Hi Glenn! The beacon you heard from Panama on 28282.0 kHz is actually HP1DCP/B, located in Panama City, not HP1DQP/B. It is fairly widely heard, especially when conditions favor receptions from Mexico and South America, like they have recently. The operator does have a page on QRZ.com, but William Buchanan has yet to hear it, hence it’s not in his beacon list. Steve Howe, Saint Albans, VT`` - so I must have miscopied C as Q. QRZ.com: ``HP1DCP Panama flag Panama, RENE IVAN FONSECA, P.O.BOX 0819-09911, REP. OF PANAMA, Panama`` (Glenn Hauser, OK, WOR)

** ROMANIA. 9740, May 5 at 0344, RRI English about Romanian involvement in Gaza, relief? Only significant signal from Europe on band. Propagationally there could be so many more if they hadn`t deleted SW (Glenn Hauser, OK, WOR)

** SPAIN. 15500, Fri May 2 at 2200, token English from SNR, good here direct S9+10/20 while the other three are too weak: 15520, 17715, 15390. A song overruns the 2200 timesignal, but then s/on English. Different YL voice than usual with contact info. No News and no apology, right into interview with a sociologist about the problem of anti-feminist social media in the ``manosphere`` (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 17715, Mon May 5 at 2200, token English from SNR equally strong S9+20/30 direct on N & S American frequencies; 15520 S9+10 and even 15390 S8/S9. Preview papal conclave and something about flamenco; 2201 news leading with Toledo train problems, power failure? no food; investigation of last week`s blackout (Glenn Hauser, OK, WOR)

** SPAIN. 15500 > 17715 > 15520 > 15390, May 6 at 2157, all four REE frequencies on, 2200 open Sefarad program since it`s Tuesday, VG to weak sigs direct (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+30/40, 15500 S9+20/30, 15520 S9+20, 15390 S9/+10, Wed May 7 at 2159, all four REEs are on, and the SAm one slightly stronger direct than the NAm one. The other two in Arabic before joining up for 2200 token English. Preview topix: Festival de Madrid, cine; and sexual violence against women in Spain`s cinema and audiovisual industries. 2201.6 news leads with Pope stuff of course; PM speaks for first time about last week`s blackout and what caused it; discussion whether Spain should rely more on nuclear energy. At 2219 second discussion that over 50% of Spanish women in AV/cinema industries have experienced sexual violence = not only rape but threats, etc. (Glenn Hauser, OK, WOR)

** TURKEY. 11785.005+, May 2 at 2158, no signal direct nor on accidentalternate 9875, from VOT English. By 2212 there is now a VP S9 signal, unreadable with Doppler flutter. At 2233 when measured, VG S9+50/60 into UTwente; 2235 outro `The Pulse of Turkish Foreign Policy`. 2236 ``always-by-your-side`` promo, music. 2242 `Did You Know That?` voiced by Efsun the axentuated so no idea what. 2246 music. 2251 s/off as if it`s 1230 on 17620: something`s always awry at Ankara. Signal is now fading down. 2252 IS to 2258* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, May 3 at 2214, VOT English not off the air, S9/+10 direct but not enough vs noise level. At 2235 into UTwente when measured, S9+15/25, mostly music until 2254 s/off as if it were 1230 on 17620, something`s always awry at Ankara, 2255 IS first notes only twice and off* (Glenn Hauser, OK, WOR)

** TURKEY. 9875.003+, Sun May 4 at 2040, S9+25/30 backwards into UTwente, starting `The Pulse of Turkey`s Foreign Policy`, yawn. 2047 music. 2051 multi-lingual ID filler reel. 2053 TRTVOTVorld promo and `Letterbox`. Hostess says recording a few days early, Thu? since was going to be away for weekend, so shorter show. Has consulted with Emirler about status of American antenna due to problems with 11785, 7275. There is a new technical manager. No change since last week, no repairs posssible, apparently ground too wet to bring in heavy equipment like crane to work on it. [Again I say nothing seems wrong with antenna *when* it is on the air - gh]. 1) Hemming? new listener from Germany. 2) Oykala?, Kawasaki? City, apparently Japan, 61-year-old pharmacist. 3) Siddartha ---, W Bengal, India, about World Health Day, April 7. 4) Port Alberni, [Vancouver Island, BC] Canada. 2102 that is all, 2103 fill with Azerbaijani folk song.

So I don`t need to listen to the 22+ UT repeat on 11785, but at 2257 confirm it has been on air, 11785.006+, S9+25/30 into UTwente, IS with extraneous German IDs to 2258.4* (Glenn Hauser, OK, WOR)

** TURKEY. 11785 & 9875, May 5 at 2200, NO signals from VOT English direct; nor at 2231 into UTwente. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.007+, May 6 at 2156, VOT not off the air, S9/+10 into UTwente but just barely modulated, with IS? At 2215 same S9+10 with flutter. Into UTwente at 2225 when measured, with music, mod seems sufficient. 2253 s/off as if it`s 1230 on 17620, awry at Ankara, and IS to 2256* (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 7 at 2159, VOT not off the air, S9 but JBM? totally unreadable direct (Glenn Hauser, OK, WOR)

** U S A [and non]. 356 MCW kHz, May 5 at 0601 UT, few NDBs audible in local and storm noise level but here is ODX, 25 watts in Ord, Nebraska; and on 379 MCW kHz, RU, 25 watts at RUssellville, Arkansas which lost its E long ago, supposed to be RUE. Also on 346 MCW, dash

and YXL is JBA, SiouX Lookout, Ontario, 500 watts. If any Canadian can arrive, this is it (Glenn Hauser, OK, WOR)

** U S A. 28204+ CW, May 7 at 2206, slow beacon W0WF/B. WGB list: ``28204.0 W0WF/B - Saint Charles MO USA EM48rr - #0 (31 Mar 2025) Note: VVV + ID - Pwr 20w`` - QRZ.com: ``W0WF USA flag USA, JERRY D WATTS, 3630 TARRAGON, SAINT CHARLES, MO 63303, USA - IF YOU COPY MY BEACON ON 28.204 PLEASE E-MAIL ME A SIGNAL REPORT AND YOUR LOCATION TO W0WF.B@AOL.COM Flag Counter`` (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2292 monitoring: confirmed UT Thursday May 1 at 0140 the 0130 on WRMI 5010: S7/S9 with storm crashes into Maryland SDR; S9+10 into Bonaire.

Also confirmed Thursday May 1 at 1658 the 1630 on SW Radio, Germany, 6160.001, S9+5/10 into UTwente.

WORLD OF RADIO 2293 contents: Australia and non, Belgium, Brasil, Canada, China and non, Cuba, Denmark, Finland, Germany, Grenada, India, Indonesia, Korea North non, Madagascar, Myanmar and non, Netherlands, North America, Portugal non, Russia and non, (Saudi Arabia), (Taiwan), (Tajikistan), (UAE), UK and non, USA, (Uzbekistan), Vanuatu, Yemen non; propagation outlook - (countries mentioned along with others not in order) {please try to disregard irregular noise bursts during the recording, which were unavoidable}

Also linx to podcast services.

Full schedule: http://www.worldofradio.com/radioskd.html

Confirmed first SW BC, Friday May 2 at 1304 the 1300 on WRMI 15770, JBA S5 direct but the ``RCI`` IS pirate clip clearly audible.

Also confirmed Friday May 2 at 2045 the 2030 on IRRS SW via AM Italia 1322.995-, S9+5 into UTwente.

Also confirmed Friday May 2 the 2030 on WRMI webcast only.

Also confirmed Friday May 2 at 2215 the 2200 on WRMI 9955, S9+20/30 direct but undermodulated.

Also confirmed Friday May 2 at 2234 the 2230 on SW Radio, Germany, 3975.001+, S9/+5 into UTwente. Next:

0300 UT Saturday WTWW 5085 [irregular];
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2230 UT Saturday WRMI 15770 to NE [NEW];
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1030 UT Sunday WRMI 9955 to SSE [also web-, phonecast];
1900 UT Sunday IRRS 1323-Italy;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW; or 7570? 7780?;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];

2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2293 monitoring: confirmed Saturday May 3 at 1454 the 1430 on SW Radio, Germany, 6160.001-, S9+5 into UTwente.

Also confirmed Saturday May 3 at 1600 on WRN North America stream.

Also confirmed Saturday May 3 at 1733 the 1730 on SW Radio, Germany, 6160.000+, S9+10 into UTwente but ACI from 6164/6165; also 3975.001+, S8/S9, both with storm crashes from N France, central Germany.

Can`t confirm the Sat May 3 at 1930v on WA0RCR, 1860 AM, because nearby SDR is still gone and none of the others closest in IA, IL, MO, TN, can get it in daytime. Should this continue to be the case, would appreciate monitors in St Louis area checking.

Confirmed Saturday May 3 after 1930 on WRN North America stream.

Confirmed Saturday May 3 after 2000 on WRN Europe stream.

Also confirmed Saturday May 3 at 2230 on WRMI 15770, S9+ into Maryland SDR. A few minutes earlier was also S9+10 direct. Next:

0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1030 UT Sunday WRMI 9955 to SSE [also web-, phonecast];
1900 UT Sunday IRRS 1323-Italy;

2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2293 monitoring: confirmed Sunday May 4 at 2000 on WRN Europe stream.

Confirmed Sunday May 4 at 2130 on SW Radio, Germany, 6160.001+, S9/+10 into UTwente and also 3975.003-, S8/9+5.

Also confirmed Sunday May 4 at 2330 on WRMI 9455, S9/+12 into Maryland SDR and NOT on 7570 or 7780 which are both OFF.

Also confirmed UT Monday May 5 at 0043 the 0030 on WRMI 7780, S9+30/40 into S Texas SDR.

Also confirmed UT Monday May 5 at 0145 the 0130 on WRN North America stream.

Also confirmed UT Monday May 5 at 0300 on Area 51 webcast only, while WBCQ 5130- continues with music. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2293 monitoring: confirmed Monday May 5 at 1931 on SW Radio, Germany, 3975.001+, S9+10 into UTwente; 6160 not checked.

Confirmed UT Tuesday May 6 at 0330 on WRMI 7780, S9+35/40 into S TX SDR.

Also confirmed Tuesday May 6 at 1309 the 1300 on WRMI 9955, S9+15/20 undermodulated.

Also confirmed Tuesday May 6 at 1419 the 1400 on WRMI 9955, S6/S8 JBA.

Also confirmed Tuesday May 6 after 2000 on IRRS SW via AM Italia, 1322.995+. S9+3 into UTwente. Tuned in earlier, at 1954 Wavescan in Japan DX report but cut to dead air at 1955. Then at 1956 fired a canned ID for AM Italia on 207, 918, 1323 kHz, and also in Italian! AFAIK they have not really been active on 918 or 207 in a long time, and NOT now at 2007 check. Next:

2330 UT Tuesday WRMI 9395 to NNW;

2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2293 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, From the desk of Richard's listening Post, Go, Oilers, Go. Radio: JRC NRD-535 HF (30 years of service), Antenna: random long wires in the trees. WRMI, USA, World of Radio #2293:
9455 kHz, voice was there (45433), if you tune in late the ID gets missed, at end of broadcast, WRMI computer, 2358, May 4 UTC 2025 [Sunday].
9395 kHz, 30% aurora no voice empty frequency, 2359, May 6 UTC 2025 [Tuesday](Lemke, Richard -AB)``

Confirmed Tuesday May 6 at 2330 on WRMI 9395, S9+40 into Georgia SDR.

Also confirmed Tuesday May 6 at 2330 on SW Radio, Germany, 3975.002+, S9+10 into UTwente.

Missed checking Wed May 7 at 1930 on SW Radio, Germany, 3975 & 6160.

Confirmed Wednesday May 7 at 2100 on WBCQ 7490 -70 Hz = 7489.930, S7/S9 into Maryland SDR. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1630 UT Thursday SW Radio, Germany 6160.

Financial support appreciated for our non-commercial public service program, by MO or check on a US bank to
Glenn Hauser, P O Box 1684, Enid OK 73702
(Glenn Hauser, OK, WOR)

** U S A. May 3 at 1520, near blackout without even JBA carriers on bands 7-22 MHz, except for US stations, some of them very weak: 9265, 9395, 9930, 9955, 9980, 12050, 12160, 13745, 15770, 17790. WWV at 15 UT not as bad as expected:

``:Product: Geophysical Alert Message wwv.txt
:Issued: 2025 May 03 1500 UTC
Prepared by the US Dept. of Commerce, NOAA, Space Weather Prediction Center
#
Geophysical Alert Message
#
Solar-terrestrial indices for 02 May follow.
Solar flux 152 and estimated planetary A-index 39.
The estimated planetary K-index at 1500 UTC on 03 May was 3.33.

Space weather for the past 24 hours has been minor.
Geomagnetic storms reaching the G1 level occurred.

Space weather for the next 24 hours is predicted to be minor.
Geomagnetic storms reaching the G1 level are expected.`` (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` WBCQs chex May 2 at 2357 into NH SDR: 3265 OFF. 5130 -68 Hz = 5129.932, IS & ID loop, S9/+10. 6160 -57 Hz = 6159.943, S7 with some other music. 7490 -76 Hz = 7489.924, S7/S8 but with heavy noise QRM: on H2Ofall it`s broad from 7470 to 7483. 9330 off for antenna change. UT Saturday May 3 at 0000, 5130 with ID and music not WTO; 7490 Chariots of Fire; 9330 back on with WLCR in English. Finally

at 0003, 7490- with Wm Tell Overture, 0004 one-word exclamation ``Happy`` and then added Easter, as it`s Good Friday, so this is a rerun, never mind, tho meanwhile I had switched to the non-noisy webcast (Glenn Hauser, OK, WOR)

** U S A [and non]. 9330, May 3 at 0616, no signal from WLCR on WBCQ. Propagation? 9395 WRMI is S9. 9330 also inaudible circa 1525. Off? Back at 0616, other sigs on 31m: 9410, 9610 DRM, 9665, 9955, 9960. At 2216 May 3, 9330 is definitely off, zero signal direct. Ditto at 0016 May 4 (Glenn Hauser, OK, WOR)

** U S A. 9330, May 4 at 0621, WBCQ/WLCR still off, while e.g. 9395 WRMI is S9+30. What`s wrong? Was also missing May 3. Still off at 1441 May 4 (Glenn Hauser, OK, WOR)

** U S A. 9330, May 5 at 0342, WLC Radio on WBCQ is finally on, S9+50 in English, after missing a couple days whenever sought (Glenn Hauser, OK, WOR)

** U S A. 9930, Sat May 3 at 2216, WTWW is off, no TOMBS, despite having been on earlier than usual at 1520 check, maybe due to Sabbath? But on 9980 WWCR so 9930 hardly necessary. By 2318, 9930 is back on; still no 9475 when WOR was scheduled months ago (Glenn Hauser, OK, WOR)

** U S A. 9930, May 4 at 1440, WTWW already on with TOMBS, S9+50 with +/- 12.9 kHz parasitic spurs (Glenn Hauser, OK, WOR)

** U S A. 5932.9, May 5 at 0348, spur from 5920 WTWW, barely detectable in sideband of 5935 WWCR, but the match on minus side of 5920, approx. 5907.185 is obvious. Same situation as heard elsewhen parasiting 5085, 9930. Furthermore there is splatter matching mod peaks of TOMBS on 5920, NOT 5890 WWCR unsynchronized TOMBS, splatter peaking around 5980 but audible up to 6020, and as close to 5890 as 5895 (Glenn Hauser, OK, WOR)

** U S A. 9930, May 5 at 1514, open carrier at S9+30 cutting off and on past 1516. By 1535 constant music of traditional hymns, and NOT // 9980 TOMBS on WWCR, and 1541 ID as ``5085, Ancient Word Radio on WTWW``. Bob Biermann is very confused about frequencies; or rather WTWW is testing with canned IDs, frequently between hymns as 9475 & 5085, especially at hourtops 1559 & 1659. 1700 into `Truth2Ponder`. So is WTWW`s one funxional transmitter now dedicated to Biermann instead of Stair? But at 1706 recheck 9930 is back to TOMBS, while 9980 WWCR has gone off. Yes, 9930 now // not synchronized TOMBS on 9395 WRMI (Glenn Hauser, OK, WOR)

** U S A. 9930, May 5 at 2215, WTWW is S9+50 with TOMBS, and this time no spurs plus/minus 12.9 kHz, other transmitter? Then I find 9475 *also* on with S9+50 of dead air with spur such as 9487.9, but off at 2216*. Circa 2245 George McClintock informs me that a visiting consultant has got the 9475/5085 transmitter on the air, so it`s expected to be running both from now on, 9930/5920 with TOMBS and 9475/5085 with Ancient Word Radio, including WORLD OF RADIO UT Saturday 0300. The cost for getting tubes rebuilt has almost tripled. However, at 2339 recheck neither 9475 nor 5085 is on. And at 0113 May 6, only 5920 is on (Glenn Hauser, OK, WOR)

** U S A. 9930, May 6 at 2158, WTWW with TOMBS and heavy splatter above and below; usual discrete parasitic spurs at 9917.1 and 9942.9, and for first time, two more at double the ~12.9 displacement! Definitely on 9904.2, and weaker 9955.8: QRMing WRMI 9955.0! Contrary to yesterday`s expectations, other transmitter still missing from 9475 (Glenn Hauser, OK, WOR)

** U S A. 9930, May 7 at 1506, TOMBS on WTWW, VG signal but no spurs or splatter. George McClintock just informed me that both transmitters are working, this one on 5920 at night, and the other one on 5085 at night, altho 9475 in daytime is still off.

9930 at 2216 check May 7, S9+60! direct but no spurs or splatter this time, TOMBS // not synch with 9980 WWCR. 9475 is still not on. Likewise at 2347 (Glenn Hauser, OK, WOR)

** U S A. 15770, Sat May 3 at 2027, WRMI `Wavescan` outro as scheduled at 2000 on System H, but 2030 music fill instead of `Viva Miami`, then 2045 `I Love Italy`. At 2222 in Spanish seems to be language lesson with repeated phases about ``mi madre``, but no Chinese, from R. Taiwán Internacional relay (Glenn Hauser, OK, WOR)

** U S A. 13845, May 4 at 1440 direct and 1514 into Maryland SDR, NO WWCR signal here, while 12160 is S9+10. 13845 WWCR-3 is supposedly 12-24 UT, daytime counterpart of 4840 which was nominal last night. 12160 is audible S9+10 into Maryland SDR. It always has an MUF advantage here, but 13845 should exhibit at least a trace if on. By 1945 check it is audible (Glenn Hauser, OK, WOR)

** U S A. 9275, May 5 at 0241, S9+30 of dead air, but just a pause as soon gospel huxter on WMLK, S9+30, much stronger than neighbour in more ways than one, 9265 WINB at only S9+20/30; and WMLK fails to provide any spurs (Glenn Hauser, OK, WOR)

** U S A. 7505, May 6 at 0628, WRNO on late with hymn in English, S9/+5. Totally unpredictable (Glenn Hauser, OK, WOR)

** U S A [and non]. 670, May 5 at 0403 UT, NO WSCR Chigago! rather Cuban music, but WSCR may be on with open carrier. Meanwhile, 720 WGN and 780 WBBM are VG as usual; WBBM pretends to be an FM-only station. At 0409 also audible a very weak station in English, could be KLTT CO or KBOI ID. By 0607 recheck, WSCR has resumed modulating stupid sports talk (Glenn Hauser, OK, WOR)

** U S A. 750, May 5 at 0608 after CBS news, WSB`s AM dog wagged by 95.5 FM tail, lacks any QRM from KMMJ Spanish gospel Nebraska, not cheating with nocturnal emissions now (Glenn Hauser, OK, WOR)

** U S A. 1360, May 6 at 0638 UT, Spanish talk and song dominate, seems religious; and CCI from Mexmx. Mainly probably KTNZ Amarillo TX, U4 6000/320, and the other could be KGMR Clarksville AR, U1 500/98 or KMNY Hurst TX, U4 50000/890 watts. Note this May 2 via IRCA:

``KMNY Dallas FW running full 50Kw day power, this night May 2nd 0800 UT -- KMYN big signal on 1360, 890 watt night power - ha ha ha - blasting away all else S+5/9. Fem Ann: "Somos La Voz de trece sesenta AM" & @ TOH: "KMNY Dallas Fort Worth". Previous logged Hurst TX as KAHZ. Cheers, Chris M, Gold Coast Qld.`` (Glenn Hauser, OK, WOR)

** U S A. 1630 kHz, May 7 at 0620, ID in passing as ``970 & 1630``, YL with news, about equal mix with another. There are only 3 N Americans on 1630 and this one is certainly KKGM Fort Worth TX, with BIN network and per NRC AM Log also in group with 970, which is KHVN, address for both axually in Dallas (Glenn Hauser, OK, WOR)

** U S A. Kansas FM stations whilst seeking Es DX: 93.1, May 7 at 2020 UT, ad for People`s Bank & Trust, and for abbyvillerodeo.com. The bank is in McPherson, NE of Hutchinson, and the rodeo - at first I thought the were saying radio -- is west of Hutch, so it`s KHMY, My 93-1, licensed to Pratt SW of Hutch, but operating from Hutch. Abbyville is too insignificant to appear in my atlas map or index. KHMY is normal fringer but had some good peaks I hoped would turn out to be Es.

94.3, May 7 at 2021 UT, financial talk with a religious angle, mono so surely the Bott station, KCVW in Kingman. But not // 800 KQCV OKC. 2024 outro show Faithfi.com, i.e. Faith & Finance; 2026 Bott ID (Glenn Hauser, OK, WOR)

** URUGUAY. 28433 USB, May 5 at 2159, CX7AM saying 73 in Spanish. QRZ.com: ``CX7AM Uruguay flag Uruguay, MARIA ELSA TORRES MOGNASCHI, GALICIA 1469, MONTEVIDEO, Uruguay`` - did not sound like a YL; of course, not every María in Spanish is female; sure of callsign fonetikaly. See also CHILE (Glenn Hauser, OK, WOR)

** VANUATU. 9960, May 1 at 0619, island music S7/S8 direct, and 9955 WRMI still off (Glenn Hauser, OK, WORLD OF RADIO 2293)

** VANUATU. 9960, May 2 at 0604, R. Vanuatu S9 direct with music, still past 0630 (Glenn Hauser, OK, WOR)

** VANUATU. 9960, May 6 at 0633, R. Vanuatu in English about inflation; or rather Bislama resorting to lots of English words, S3/S4 but clearer than usual (Glenn Hauser, OK, WOR)

** VENEZUELA. 28444 USB, May 3 at 2221, YV5SSB calling QRZ, CQDX. QRZ.com: ``YV5SSB Venezuela flag Venezuela, Alexis "Alex" Deniz, Carrizal, Miranda, Venezuela -- Photojournalist & Dcoumentary Photographer please check my work: http://www.denizfotografia.com.ve @denizfotografia  X,  Instagram and TikTok`` -- and he`s quite a ``world champion`` contester (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 630.04 approx., May 5 at 0406, low audible het = LAH against 630.0 stations. MWoffsets has nothing further off than 630.006 (Glenn Hauser, OK, WOR)

For what it's worth, KHOW [Denver] was operating around 630.019 the entire weekend of my Nevada-Utah border DXpedition last October. 73 Tim Hall`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1240+, May 5 at 0359 UT, het on plus side of 1240 Graveyard pileup, presumably perennial KCRT Trinidad CO (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1476 kHz, Mon May 5 at 0357, JJBBA carrier, only 9/kHz TA one in careful full MW bandscan direct, surely TWR BENIN, with its low-latitude advantage, per MWlist from 0320 M-F in Hausa, 150 to 200 kW. I wonder if it be direxional favoring Nigeria, disfavoring us (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1540-, May 5 at 0359 UT, het against 1540.0 signals, no doubt usual KGBC Galveston TX (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1550-, May 5 at 0359 UT, JBA het against 1550.0 signals, presumably XEREL Morelia, Michoacán, México (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7599-7646 approx., May 2 at 0632, multi-carrier, multi-tones beating wideband, peaking S9+25 amid, such as at 7628. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9540, May 3 at 1525, some JBA talk. This is the only signal audible on any band 7-22 MHz except US stations, in near blackout. EiBi shows RTI, SOH and CNR1 jamming all could be active at this hour (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9936.0, May 6 at 0630, open carrier at S3 but with clix at the steady rate of 22/minute, and also detectable out to 9927/9945. At this hour no SWBC stations in the way. Yet another of these

mysteries always ending in 6. Almost identically logged earlier:

``UNIDENTIFIED. 9936.0 AM, March 15 at 0618 UT, S8/S9 open carrier except for clix, at the rate of 20/minute = every 3 seconds, JBA out to 9923/9950, +/- 13 or 14 kHz. What is this? Yet another one ending in -6`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9936.0, May 7 at 0607, there it is again like 24h ago, open carrier at S6/S7 with clix. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11540 approx., May 5 at 0338, multiple tones mixing like several CW signals on almost same frequency, narrowband unlike the wideband unIDs I report. This is the SSOB as there are *no* broadcast signals audible on 25m except for JBA 12050 Spanish, i.e. WEWN (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 12153-12196, May 7 at 1431, range of multi-carrier, multi-tones beating, peaking circa 12171 at S9+5. Would make a huge collision with WWCR 12160 after 1500 - but at 1502 recheck, WWCR only, which of course is the OOB intruder. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 18965, and weaker 18970, 18985, open carriers, May 2 at 2208 direct. Suspect CNR1 jammers at least standing by for Sound of Hope, altho propagation is degraded. Aoki & EiBi both show those only on 18900 & 18970 in this neglected band (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 87.7 MHz, May 7 at 2008 UT tune-in caradio in downtown Enid, fragment of Mexmx and gone. Must have been meteor scatter; nothing more in next few minutes. Could have been 87.75 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 87.9, May 5 at 2010 UT, Mexmx fading in and out on caradio in Enid, probably RF feeder for entertainment of huespedobreros. Later at different spot had dead air in $tereo, maybe two separate transmitters. No sporadic E shown on the maps (Glenn Hauser, OK, WOR) See also OKLAHOMA

UNIDENTIFIED. First sporadic E FM DX of season? May 7 circa 1630 UT, map shows nexus around Memphis with NW/SE and NE/SW paths; tho a little too close to here and E/W, worth it to tune the caradio for DX. No IDs, but brief Es-like strong signals appeared and soon faded out:
93.3 at 1650 UT, Jake-FM OKC unusually with CCI
93.5 at 1709 UT, mono talk over KS C&W
94.1 at 1710 UT, talk not // 89.7 so not KTHM Waynoka OK; but poss. 3 other Okies (Glenn Hauser, Enid OK, WOR)
